2005 Mustang

V 6 - 5 speed transmission with 87,000 Kms

Red leather seats with a Mineral Grey exterior

The car will sell with 2 sets of tires on factory rims, the summer tires will need replacing in about 2 years depending on the amount of kms put on the car and the Goodyear winter tires that were new last winter

Battery is 2-3 years old and anything that needed to be fixed was fixed in this car.

All recalls have been completed including replacing airbags.

It only has a small door ding in each door and one small dent in hood from a hail storm and absolutely no rust.

This car has been maintained extremely well, I do not think anyone will be disappointed in this car!

Current owner is Rupert James (former secretary/treasurer of the SFMC)

Rupert will not nickel and dime anyone as long as there is a reasonable offer.

Rupert's numbers are: Cell 306-570-7585
Home 306-789-7923
